

Student Proposal Requirements

Directions and Requirements:

1. Write a proposal explaining your project or idea in approximately 700 words. Provide background information on the problem, a description of your solution, the environmental benefit, and an evaluation of the economic feasibility of your idea.
2. Your proposal may also include original CD's, PowerPoint presentations, web pages, graphics, models, pictures, or a videotape (three-minute limit) to support your written proposal. Hard (paper) copies of PowerPoint or web pages must be printed and attached to the proposal.
3. Entries are judged according to the following rubric on:
 - Originality
 - Environmental/Disaster Preparedness Benefits
 - Scope of Idea
 - Research and Development
 - Technology Applied
 - Graphic Supplements
 - Writing Mechanics (Organization, Word Choice, Sentence Structure, Spelling, Grammar, and Punctuation)
4. All entries must include the following:
 - a. Title Page: The name of your project/proposal and the code number your teacher has assigned you. (Your name or school should not appear anywhere in the document.)
 - b. APA Citations: All research that has been quoted, paraphrased or summarized must have proper in-text citations according to the American Psychological Association (APA) guidelines.
 - c. APA Reference Page: An alphabetized list of all research that has been quoted, paraphrased, or summarized in the proposal must be included at the end of the proposal.
5. Personal/Family funds spent on the proposal should not exceed \$50.00. This does not preclude fundraising efforts or grants for the project.
